

## Steganos Privacy Suite 18: One-stop data security

**Berlin – 1. September 2016.** Berlin software provider Steganos offers comprehensive protection for digital data with the new Steganos Privacy Suite 18. Users can use the security application to encrypt documents, images, passwords and email, and so surf the Internet securely. The most important innovations include webcam protection, a Microsoft Edge browser plug-in\* and new email encryption powered by Mynigma. The software combines the functions of the proven Steganos Safe 18 security software (data encryption) and Steganos Password Manager 18 (password administration) with Internet Trace Destructor (elimination of surfing traces). Steganos also offers the Safe 18 and Password Manager 18 products for purchase as stand-alone solutions.

### Innovations in Steganos Privacy Suite 18 at a glance:

- Optimised shredder for clean, permanent data removal
- Webcam protection
- Optimised Steganos Crypt & Hide for hiding sensitive data in your images or music
- Backup assistant for backing up data to backup media
- Optimised portable data safes for USB sticks, CD, DVD or Blu-ray disc
- Microsoft Edge password manager browser plug-in\*
- Optimised, enhanced automatic entry of passwords and data – including on smartphones and tablets
- Price: € 49.95 (5 devices can be used with the software per licence purchased)
- Up to 30 days' free trial period
- More information at: <https://www.steganos.com/en/steganos-privacy-suite-18>

*“We are delighted to be able to offer almost 20 years of proven encryption and password management software in the general reworking of Steganos Privacy Suite 18. Clear menu guidance ensures that the software is easy to use; it meets the highest security requirements, and has been enhanced with new functions. This means that our customers' data and that of their loved ones will continue to be secure in the future,”* says Joachim Heng, Managing Director of Steganos.

### **Steganos Privacy Suite 18**

Users benefit from a range of changes and improvements in the new Steganos Privacy Suite 18. New users can find their way around faster as a result of complete re-engineering of the user interface. An increasing nuisance and significant intrusion of privacy is hacking the webcam. Privacy Suite prevents misuse of the computer's camera and protects users' privacy. Anyone wanting to permanently delete data will find a very helpful function in software called the Shredder. Steganos has also made improvements in the area of email security. With the assistance of Mynigma encryption technology, emails containing sensitive data can be sent without worry.

### **Steganos Password Manager 18**

Steganos Password Manager 18 helps the user set up and manage passwords. Version 18 includes a plug-in for the new Microsoft Edge browser\*, in addition to the reworked interfaces for Mozilla Firefox and Google Chrome. In addition to the restructuring of the user interface, automatic entry of passwords and data has been improved and enhanced.

More information at: <https://www.steganos.com/en/steganos-password-manager-18>

### **Steganos Safe 18**

Steganos Safe is a digital safe for sensitive data such as documents, business

records, images or TAN lists. The security software is intuitive to use and encrypts critical data of any type on the PC, in the network and in the Cloud, using the most up-to-date 384 bit AES-XEX encryption. Besides the new, intuitive program interface, the new features in Version 18 include a backup assistant for saving data to backup media, and optimised portable safes for USB sticks, CD, DVD or Blu-Ray disc.

### **One software product with five licences for the entire family**

Those who opt for the new Steganos Suite 18 can protect a total of 5 devices. This is because the scope of delivery includes a household licence for no fewer than five Windows computers, so the family members' computers also receive the necessary, professional protection.

### **Prices and availability**

Steganos Privacy Suite 18 and the Steganos Safe 18 and Steganos Password Manager 18 software are available to download from the homepage now. Steganos Safe costs \$ 39.95, Steganos Password Manager \$ 24.95 and Privacy Suite 18 \$ 59.95. **All of the products can be trialled for free for up to 30 days.**

### **System requirements**

Microsoft® Windows® 10, 8 or 7: at least 1 GB RAM (32 & 64 bit)

CD/DVD-ROM drive, 200 MB of storage space, Internet connection (for updates)

Steganos Mobile Privacy iOS and Android apps are available for free in the App Store or Google Play store.

For Steganos Safe™: Additional storage space is required for the secure drives. The NTFS file system is required for secure drives larger than 4 GB.

For Steganos Portable Safe™: Optional CD/DVD or Blu-ray burner with corresponding software.

Optional, temporary hard drive space of up to 50 GB for Steganos Portable Safe™ packet files. The NTFS file system is required for secure drives larger than 4 GB.

Supported key devices: All devices that Windows recognises as writable removable media (e.g. USB sticks, memory cards, digital cameras). Key devices not included in delivery.

Functionality restriction: No mailbox encryption for less than 64 bit operating systems.

\*Available soon - awaiting approval from Microsoft
